Summary

Senior Software Engineer with 6+ years of experience building large-scale distributed systems and ML infrastructure. Passionate about high-throughput data pipelines, system reliability, and engineering excellence. Previously at Google and Stripe.

Experience

Senior Software Engineer

Stripe | Jan 2022 – Present

Led redesign of payment routing engine, cutting p99 latency by 40%. Built real-time fraud detection pipeline processing 50K TPS using Kafka and Flink. Mentored 3 junior engineers and drove team technical roadmap.

Software Engineer II

Google | Jun 2019 – Dec 2021

Contributed to BigQuery storage layer. Improved columnar compression algorithms reducing storage costs by 15%. Shipped features for 5M+ active users.

Software Engineering Intern

Microsoft | May 2018 – Aug 2018

Built automated regression testing tooling for Azure SDK. Reduced test cycle time by 30%.

Education

Master of Science, Computer Science

Carnegie Mellon University | 2017 – 2019

Bachelor of Technology, Computer Science

IIT Bombay | 2013 – 2017

Skills

Python, Go, C++, Distributed Systems, Machine Learning, Apache Kafka, Kubernetes, AWS, PostgreSQL, TensorFlow, Docker, Redis, gRPC, Protocol Buffers
